

About Freeport Resources Inc.

Freeport Resources Inc. (TSX-V: FRI, FSE: 4XH, OTCQB: FEERF) is a Canadian junior mineral company with a focus on Copper. The Company recently acquired a 100% interest in the Yandera Copper Project, one of the largest undeveloped copper deposits in the world located in Papua New Guinea.

The Yandera Copper Project is one of the largest, undeveloped copper deposits in the world.

The Yandera project is located in the highly prolific PNG Orogenic Belt in the same geological arc as some of the world's largest gold and copper deposits including Grasberg, Frieda River, Porgera, Lihir, Wafi/Golpu and Kainantu.

Yandera is a project of strategic national interest in Papua New Guinea and is set to become one of the country's most significant copper mines.

Copper

Achieving the goals of the Paris Climate Accord will not occur without copper. The entire path to net-zero emissions through electrification and sustainable energy will require technologies that all have copper at their heart. Developing projects like Yandera will be crucial to meeting this growing copper demand in the coming years.
